SPOT is an online learning management system, that offers fire and emergency evacuation training for all facility types.

SPOT users simply log on to complete training at the most convenient time for them. Once complete, SPOT issues a certificate of completion and provides records of training for compliance purposes.

Take advantage of the added flexibility self paced online training provides

What Courses Are Available?

SPOT includes a comprehensive range of training modules. The short sessions take users through important topics, step by step, using demonstrations and expert commentary. Topics covered include:

- ✓ Understanding your fire and emergency evacuation plan and diagrams
- ✓ Locating exits, fire doors and fire stairs
- ✓ Raising an alarm and alerting others
- ✓ Emergency evacuation procedures
- ✓ Installed fire protection equipment including fire extinguishers, fire hose reels and fire blankets

The sessions include an audio and visual demonstration showing the operation and use of the installed fire protection equipment.

What Are The Benefits Of SPOT?

ANYTIME, ANYPLACE

Easily accessed through First5Minutes.com.au, SPOT allows users to undertake training at a time and place that best suits them. This is ideal for occupants and staff who are based on or off-site. Plus, there's no need to postpone training if staff are sick or an urgent business deadline takes hold.

TRAINING REQUIREMENTS MADE EASY

SPOT makes it easy to ensure individuals are trained at intervals mandated by legislation, regulations, codes and standards. With complete visibility of progress, you can easily view when training sessions have been completed. The system also stores records of training to meet statutory requirements.

Who Is SPOT Designed For?

SPOT is designed to complement First 5 Minutes' emergency response training programs. It is suitable for general occupations who are not members of the Emergency Control Organisation (ECO) and serves as supplementary training for ECO members.
