

CORPORATE BROCHURE

Five minutes makes all the difference

Your emergency preparedness partner

Founded in 1986, First 5 Minutes is at the forefront of knowledge sharing and training in active threat and emergency response preparedness. The Australian threat environment is constantly evolving; First 5 Minutes develops industry best-practice solutions to ensure businesses, facilities and people are armed with the knowledge and skills to respond to any emergency with confidence and effectiveness.

Are you prepared to **respond?**

While we can't map the future to predict the occurrence of a specific emergency event, we can plan and prepare the proper policies and procedures to mitigate the impact of an emergency. Strengthen your business and facility; arm your people with the knowledge and understanding of what to prepare for and how to respond to an emergency.

OUR CORE AREAS OF EXPERTISE INCLUDE:

Emergency Planning

Training & Exercise Facilitation

Security Risk Management

Reporting and
Compliance Management

Working to the higher standard

First 5 Minutes is a recognised leader in the field of emergency response preparedness to a wide range of clients across Australia. What makes us different?

30+ Years' Experience

100+ Staff

Vast Portfolio of Industry & Property Types

Online Program Management

In-house Customer Service Team

Certified Trainers

Constant Investment in Product Innovations

Broad Property Risk and Preparedness Capability

CAPABILITY 01

Emergency Planning

Emergency management planning is a regulatory requirement of Australian Standard 3745:2010 Planning for Emergencies in Facilities. An effective plan helps ensure your business is equipped to make urgent decisions about keeping your people safe.

First 5 Minutes has taken the complexity out of emergency management planning. Our substantial bank of knowledge, research and experience accrued over 30 years, means we have the resources to deliver and support your requirements.

OUR SERVICES INCLUDE:

Emergency Management Manuals

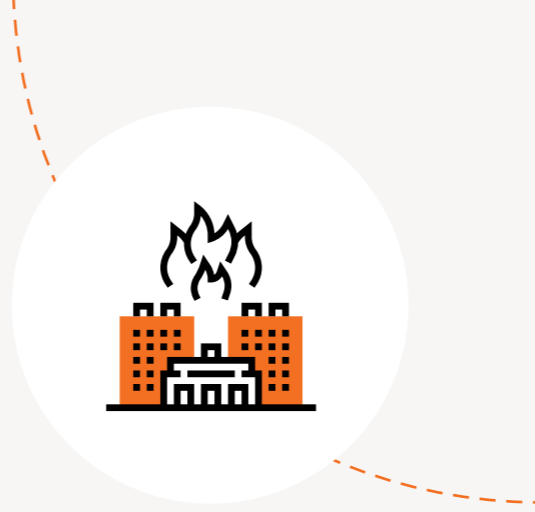

Evacuation Diagrams

Personal Emergency Evacuation Plans

Management In Use Plans

Compliance **Guaranteed**

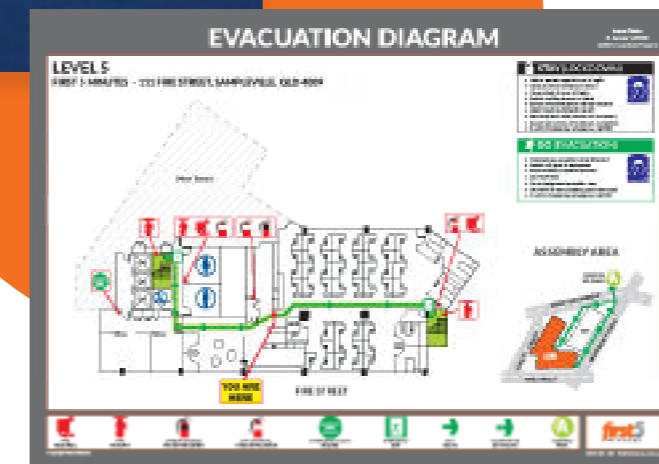

To ensure your compliance in accordance with Australian Standard 3745:2010 Planning for Emergencies in Facilities, our experts will visit your site gathering the required information to develop the policies and procedures for your Emergency Management Manual (EMM), provide recommendations on the required safety equipment, training and custom design your Evacuation Diagrams.

Having an effective Emergency Management Plan in place will assist your facility in:

- Reducing the effects of an emergency
- Preventing personal injuries
- Minimise impact of business disruption

CAPABILITY 02

Training & Exercise Facilitation

Emergency preparedness training provides occupants with confidence and a means to validate their knowledge and understanding.

First 5 Minutes offers a range of programs delivered by our leading Training Consultants either in-person or online. We provide accredited courses, theory and practical based training. Our Consultants are certified, with experience in emergency services and education. All programs are reflective of current legislation, standards and industry best-practice.

Training Programs

First 5 Minutes offers training both on-site and online. We're happy to travel to your facility or just like a video conference, we can broadcast training via Zoom.

SOME OF OUR MOST POPULAR TRAINING PROGRAMS INCLUDE:

-  **Chief Warden, Emergency Coordinator and Warden**
-  **Fire Safety Advisor**
-  **Assisted Evacuation Exercise**
-  **General Occupant Emergency Response**
-  **Bomb, Hazardous Substance and Suspicious Mail Package Handling**
-  **Armed Intruder/Robbery Response**
-  **Hostage/Lockdown/Active Threat Response**
-  **Aggressive and Irate Client Awareness**
-  **Fire Extinguisher Training**

Self-Paced Online Training SPOT

For general building occupants or supplementary warden training, we offer online training courses covering fire safety, fire equipment and emergency evacuation procedures. Our SPOT platform makes it easy to ensure everyone is trained at intervals mandated by Australian legislation, regulations, codes and standards.

- ✓ It's a cost-effective service, designed to suit any size business
- ✓ There are no contracts, simply pay-as-you-go
- ✓ 30-minute sessions minimise business disruption
- ✓ Available 24 hours a day for maximum flexibility

DELIVERING 24/7 ON DEMAND ONLINE TRAINING

FLAIM Training

FLAIM enables hands-on use training for scenarios that are inherently unsafe and not possible due to environment or regulatory constraints. The Hot Fire exercise provides users the opportunity to use a fire extinguisher in an alternate environment.

The program has been designed and developed by our own industry experts in conjunction with one of Australia's emerging VR leaders. The exercise involves identifying the existence of a fire, deciding on the type of extinguisher to use and then using it to extinguish the fire in appropriate manner.

The exercise is supplemented with a theory component and delivered on-site for your convenience.

CAPABILITY 03

Security Risk Management

Taking proactive measures such as inspections and audits of your premise, safety systems, plans and procedures goes a long way to maintaining a secure facility.

First 5 Minutes provides a range of auditing, consulting and advisory solutions. Our audits involve a full investigation of your facility and compliance in accordance with relevant Australian standards and risk management principles and guidelines.

Security Risk Management Services

Audits are completed by licensed personnel in accordance with the security advisor requirements of each state in Australia. We review processes, procedures and protocols. Our people are highly experienced in threat and risk scenarios both within Australia and internationally.

We provide detailed reports from all our investigations including risk mitigation strategies to assist in diminishing your risk profile.

SECURITY RISK MANAGEMENT SERVICES INCLUDE:

Security Risk Assessments

Independent Security Advice

Fire Safety Audits

Work Health and Safety (WHS) Inspections

CAPABILITY 04

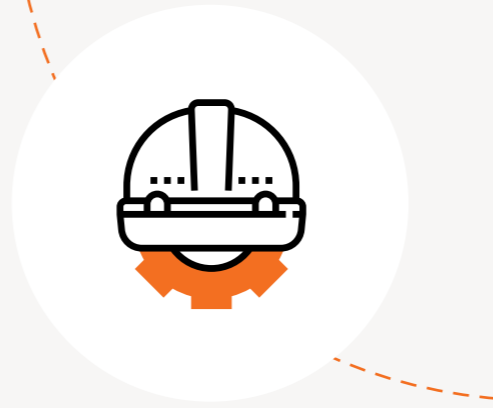

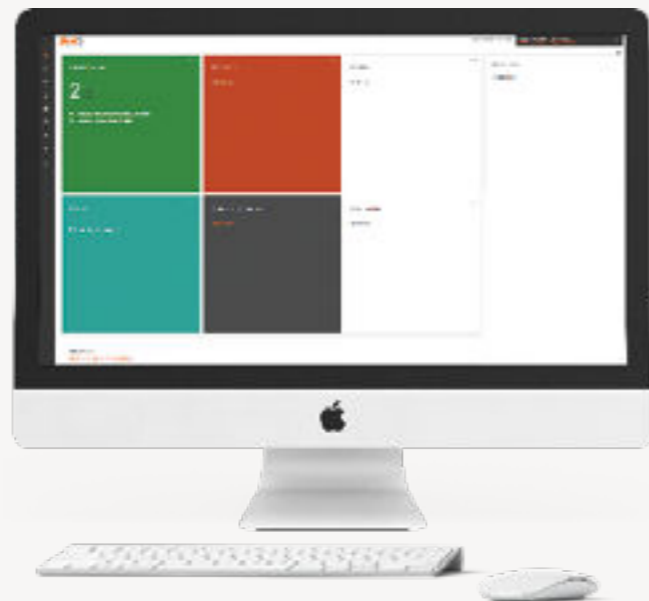

Reporting & Compliance Management

Good governance and compliance are essential to the success of meeting obligations to Australian Standard 3745:2010 Planning for Emergencies in Facilities.

Online Program Management

24/7 ACCESS

Our customer portal Webconnect provides instant access to your property's compliance status and records. Check your building's current compliance level; download all site-specific documents such as Emergency Management Manuals and Evacuation Diagrams along with historical attendance records.
